

Proof of Identification for Private Individuals

We are required by law to check the identity of all account holders. This is to protect you against the risk of identity fraud and allows the Society to comply with money laundering regulations. For new accounts an item of identification from the lists below is required to verify both names and address

An electronic check will be carried out for all private individuals aged 18 or over for both account holders, account operators and beneficiaries.

A document can only be used once, therefore we will require one piece of identification from the Verification of name list and one piece of identification from the verification of address list. The documents must be original documents except where the application is made via post and this must be certified by one of the following professionals, Solicitor, Accountant, Authorised Financial Advisor or doctor stating full name, profession, address of employment and contact telephone number.
